NLD is fully operational in Ukraine despite of the war

NLD core business sectors

Water: emergency; purification, capital construction. Water for human, farming, animals, and industry

Development and reconstruction: critical infrastructure, civil development, and mobile modules.

Energy: backup sources, energy efficiency, and generation

Healthcare: equipment, AI, pharmaceutical, and services

Military and Defence

Legal, consultancy and Investments

High Impact Social Projects by NLD

1. Healthcare
 - UNICEF-NLD: \$13.5 M diagnostics project for COVID-19 in Ukraine (25% of C-19 diagnostics)
 - Joint project Clinton Foundation – NLD – Omega Diagnostics (UK). Diagnostics in AIDS patients in six countries of Europe and Central Asia.
2. Water purification: NLD – Butyl (UK). Khahovka Dam explosion affected 6M people leaving them without drinkable water. NLD provided with energy-independent solutions for water purification compliant with the Red Cross standards.
3. Energy projects during 2022-2023 winter blackouts. NLD was one of the first companies that provided generators for healthcare facilities and for bomb shelters in kindergartens across Ukraine. During air raid kindergartens keep children in underground bomb shelters. No electricity – temperatures drops to 0 °C in winter and kids cannot be sent home because the danger of shelling. NLD provided energy – hence warm and safety for pre-school kids.

Advantages of Cooperation with NLD in Ukraine

1

NLD with its legal entity in Ukraine has advantage of participating in governmental and private tenders

2

NLD operates in two major ways

As a Value-Added Distributor connects international suppliers and local clients, both governmental and private

In collaboration with international companies, NLD fulfils all stages of complex projects in Ukraine

3

How NLD implements complex projects in Ukraine:

Participates in international tenders, local governmental and business tenders

Provides budget and planning

Obtains legal permissions and licenses

Helps to navigate Ukrainian legal & regulatory environment

Executes complex project, incl. projects that require high level of technology and engineering, and significant amount of work force

Controls and monitors all stages of the project:

- financial audit
- work and quality control
- end-user service support
- post-sales support
